If you opt for delivery to your hotel, charges will be calculated based on the time our staff spends, along with car expenses. WiFi Availability:

The WiFi connection aboard the boat is accessible only when we are within the coverage zone. However, please be aware that during cruising in remote areas without coverage, WiFi service will be unavailable. Neither a local SIM card nor a regular mobile network can be utilised for making calls or sending SMS messages.

Typical Schedule and Communication Options:

Our schedule for WiFi availability generally follows the following pattern, although it may be subject to change based on the itinerary and weather conditions:

Monday (lunchtime) to Thursday (evening): Due to the boat being outside the coverage zone, WiFi service will be unavailable. Calls and sending SMS messages will not be possible during this period. We do offer a satellite-based telephone service for making calls during this time, which incurs an additional charge of 5 EUR per minute. A charge is obligatory to be paid even if the call was not successful (call was not picked up).

Friday and Saturday: WiFi service is once again available aboard the boat, regular mobile network available.

We kindly advise you to prepare in advance for a delightful digital detox holiday experience. Embrace the opportunity to disconnect from the digital world and immerse yourself fully in the beautiful surroundings and activities onboard.

If sizes are not provided on time (deadline is 14 days before the trip starts), the boat reserves the right to refuse to provide rental equipment due to the limited stock aboard.
